

WELLSVILLE MANOR CARE CENTER

May 16th, 2022

Your Bridge Between Hospital and Home...

Dear Family and Friends,

On behalf of everyone at Wellsville Manor Care Center, I hope this week's family letter finds you well. Within this week's letter we will discuss our current COVID-19 status within the facility, updates on our various construction projects, and a reminder to all family members who visit their loved ones here at the facility. If you have any questions regarding our facility, or your loved ones, please feel free to call the facility at 585-593-4400 or check out our website at www.wellsvillemanorcarecenter.com.

Wellsville Manor Care Center is COVID-19 free! Our facility does not any staff or residents currently positive for or under investigation for COVID-19. Our facility has adopted the most recent guidance from New York State Department of Health regarding vaccination status and isolation/quarantine updates. Any new admission that is not **fully vaccinated (having both their primary series and booster dose of the COVID-19 vaccine)** will be placed into a private room under transmission-based precautions, for 14 days. If a resident has both their primary series and booster dose of the COVID-19 vaccine, they will not require isolation/ quarantine upon admission. This is to reduce the potential spread of the COVID-19 virus, as new admissions have a higher risk for exposure out in the community than residents within our facility. Wellsville Manor Care Center will continue to monitor residents and staff for signs and symptoms of COVID-19, and if our COVID-19 status is to change, we will be reaching out residents and their representatives directly. Please feel free visit our website, where we have posted our COVID-19 Mitigation Policy for your review. If you have any questions regarding our current COVID-19 status, please feel free to call the facility at 585-593-4400 or visit our website at www.wellsvillemanorcarecenter.com.

Wellsville Manor Care Center is happy to announce that our construction projects will start back up this week. We will be focusing our attention on our new generator replacement, with the preliminary work starting this week Monday, 5/16/2022. We will also be replacing the furniture in 30 resident rooms, upgrading all aspects of the facility. We are very happy that we are able to update our resident common areas and rooms. Our residents are the most important aspect of the facility, and it is our duty to ensure they have the best accommodations while in our facility. Wellsville Manor Care Center is happy to allow family visitation within the facility, especially during a national pandemic. We have to remind everyone that use of face masks are mandatory throughout your entire visit. Even while in the resident's room, **face mask must be worn at all times**. If you have any questions regarding our policies and procedures regarding COVID-19, please feel free to call the facility at 585-593-4400. We wish you all the best in the days to come, and we hope to see you all very soon.
