

# WELLSVILLE MANOR CARE CENTER

*Your Bridge Between Hospital and Home...*

August 15<sup>th</sup>, 2022

Dear Family and Friends,

On behalf of everyone at Wellsville Manor Care Center, I hope this week's family letter finds you well. Within this week's letter, we will discuss our current COVID-19 status, updates on our construction projects, and important information we want everyone to be aware of. As always if you have any questions, please feel free to contact the facility at 585-593-4400 or visit our website [www.wellsvillemanorcarecenter.com](http://www.wellsvillemanorcarecenter.com).

Wellsville Manor Care Center is officially COVID-19 free! Our facility has 0 residents and 0 staff with confirmed cases of COVID-19, or any having signs and symptoms of COVID-19. Wellsville Manor Care Center will continue our monitoring of all staff, residents, and visitors for signs and symptoms of COVID-19, and if our status is to change, we will be reaching out to everyone via our weekly letters, ROBO calls, and postings on our website [www.wellsvillemanorcarecenter.com](http://www.wellsvillemanorcarecenter.com). Wellsville Manor Care Center is following all CDC and New York State Department of Health guidelines pertaining to COVID-19, and we are continuously updating our policies and procedures as new information is available to us. We will continue to educate and encourage all of our residents and staff to stay up to date with the COVID-19 vaccine and applicable booster doses. Wellsville Manor Care Center would also like to encourage all family members and visitors to receive their COVID-19 vaccine and applicable booster doses as soon as possible, to ensure everyone is protected as much as possible. With the fall and winter months approaching, we all know that infections and virus's increase during the colder temperatures, therefore if we can increase our immunity to an infectious disease, it has the potential to slow down the spread and keep everyone as safe and healthy as possible. If you have any questions regarding our current COVID-19 status and/or COVID-19 vaccinations and booster doses, please feel free to contact the facility at 585-593-4400, or visit our website at [www.wellsvillemanorcarecenter.com](http://www.wellsvillemanorcarecenter.com).

Wellsville Manor Care Center is currently renovating our administrative offices and main lobby to improve the overall aesthetic of the facility. The improvements being made throughout the facility are to bring new life into the facility, as much of the facility is from the original creation of the building in 1983. We are very excited about all of the changes, and we know our residents are pleased with the results. Our facility is also in the process of replacing our emergency generator with one that will power the entire facility in the event of a power outage. We are very excited about this change, as if there was a power outage in the community and surrounding areas, our facility will be functioning as normal. This will ensure our residents have the peace of mind in an emergency situation and our staff can function as normal.

Wellsville Manor Care Center appreciates all of the feedback we have received from our residents and their family members. We would love to hear from you regarding your loved ones, or the facility itself. Please feel free to contact the facility at 585-593-4400. We wish you all the best in the days to come, and we hope to see everyone soon.

Hunter H. Kane, LNHA  
Administrator
